

ACL

Network Object Group

NOG är ett bra sätt att gruppera nät eller hostar.

IPv4-syntax:

```
object-group ip address IPv4-NOG
  host-info 1.3.3.7
  1.3.3.0 255.255.255.0

ip access-list extended IPv4-NOG_ALLOW
  permit ip addrgroup IPv4-NOG any
```

IPv6-syntax:

```
object-group network v6-network IPv6-NOG
  host 2001:abba::1337
  2001:abba::/64

ipv6 access-list IPv6-NOG_ALLOW
  permit ipv6 object-group IPv6-NOG any
```
