

BGP

Kommandona nedan kan behöva bytas till advanced-routing och logical-router, om man kör det läget.

To restart/refresh BGP sessions, run the following commands:

- For self initiation:
 - > test routing bgp virtual-router default restart self (for restarting BGP connections)
 - > test routing bgp virtual-router default refresh self (for refreshing BGP connections)
- From Peer side:
 - > test routing bgp virtual-router default restart peer <BGP peer> (for restarting BGP connections)
 - > test routing bgp virtual-router default refresh peer <BGP peer> (for refreshing BGP connections)
